EXPERIENCE

Sellerkin • Full Stack Developer Intern   Certificate   Website   July 2023 - August 2023

- **Developed** the whole **Design, Frontend and Backend** of a website to help **sellers on etsy.com** to analyze every product, shop and keywords to increase their profits
- **Lead** the development team and worked **collaboratively** to come up with complex **ideas and algorithms** coupled with a Tech Stack of: **Reactjs, Node and Express js, rest apis, etsy apis**

Metavolf • Web Developer Intern   Certificate   Design   Website   Jan 2023 - April 2023

- **Developed** & **Designed** the website, learnt to be **flexible** and to build as per client needs
- Helped in **problem solving** & **ideation**. Tech used: Next js, CSS, Firebase

KEY PROJECTS

Chromafy   Extension   Website   Github   May 2024

- A **Web Extension** to browse and apply color palettes straight to your website with just a few tweaks.
- Helps visualize colors on your **own website** instead of relying on static generic mockups
- Tech stack: **Chrome Extension, React js, Astro**

Techit   Website   Github   June 2023

- A **Social Media** website where people can share anything related to **tech** and build **a community.**
- Implemented features like **authentication, sessions, posts, notices, profiles** and key social media **interactions** and got to **learn** a lot about **full stack** development.
- Tech used: **React.js, MongoDB, Express js, Node js**

ACHIEVEMENTS

- **Contributed** in multiple **open source** repositories and completed **Hacktoberfest** 2022
- Secured **1st** place in Hackathons **twice** - in Codeissance & TSEC Codestorm's Hackathon (2021 & 2022)
- **Top 5** in UXplore's Mockupp - a solo Ui ideathon organized by GDSC TSEC

POSITION OF RESPONSIBILTIES

Design Lead - Dev's Club TSEC   March 2023 - April 2024

- Designed UI for TSEC App, TSEC websites, multiple social media posts and posters
